

SCIENCE

The Youth Travel Academy has become increasingly successful in the co-operation with diverse Universities across Germany. Specialist areas of work have been:

- Involvement in the design, running and implementation of research project
- Development of praxis orientated teaching modules, which are delivered by Academy members in variety of university settings and courses
- Recent publications include:
 - Safeguarding Tools for Implementation in youth travel provision
 - Intercultural Learning on Youth Travel
 - Parent Advice and Guidelines on Youth Travel issues
 - Legal Framework for international youth travel providers
 - Development of a Youth Travel Quality Standard
- Participation in workshops of youth travel organisations, AGM'S and government funded projects in the youth service environment in order to ensure a knowledge transfer science/practise and vice versa.
